

2018 SUMMER PROGRAMS

Spend the summer with us! Enroll your child in 9th Bridge School's STEAM-centric summer camp, and choose from sessions focused on Design, Engineering, and Science. Our camp offers weekly workshops and field trips (for elementary campers), cooking courses, water activities, challenges, and movies to enrich campers throughout the dog days of summer. Activities are led by our highly qualified teaching staff and are designed to cultivate curiosity, creativity, self-expression, and positive social interaction.

2018 CAMP FEATURES

- Activities, Games, and Weekly Challenges
- Movie Days
- Cooking Classes
- Water Activities
- Special Guest Visits
- Field Trips
- Arts and Crafts
- On-Site Science and Engineering Workshops
- Week-to-Week Registration

Session 1: DESIGN CAMP (Week of June 4 & June 11)

Campers will design and build their own arcade games, learning about the design thinking process and maker tools.

Session 2: ENGINEERING CAMP (Week of June 18 & June 25)

Campers will engage in engineering challenges to inspire innovative thinking and designing. Campers will work on small teams to design creative solutions to fun challenges.

WATER WEEK! (Week of July 2*)

Water activities, games, and challenges every day this week!

Session 3: SCIENCE CAMP (Week of July 9, July 16, and July 23)

Embark on a summer adventure to a land of imagination and science. Campers will engage in interactive and hands-on science experiments and investigations.

*Camp closed on July 4th
