

Summer Camp Information

Session 1: Design Camp	
<p>Week 1: June 4-8</p> <p>Exploring Game Designs</p>	<p>Week 2: June 11-15</p> <p>Designing & Prototyping Games</p>
<p>Game on! Campers will learn about various types of games and the key elements of a game in preparation for designing and building their own arcade by the end of the session. This week's field trip...</p> <p>Fremont Arcade</p>	<p>Using the story of Caine's Arcade as a springboard, campers will engage in the steps of design thinking this week as they craft our very own arcade games! This week's field trip...</p> <p>John's Incredible Pizza Co. (includes food & games)</p>

Session 2: Engineering Camp	
<p>Week 3: June 18-22</p> <p>Simple Machines Challenge</p>	<p>Week 4: June 25-29</p> <p>Building Structures</p>
<p>Pulley systems, inclined planes, levers, and more! Campers will learn about various types of simple machines as they explore how to move objects and build structures. This week's on-site workshop is...</p> <p>Mad Science's Brixology</p>	<p>Who says there can only be Seven Wonders of the World? This week campers will tinker with various materials like blocks, Legos and wood to design and create their very own monuments, structures, buildings, mazes and more! This week's field trip is...</p> <p>Discovery Children's Museum</p>

WATER WEEK!
<p>Week 5: July 2-6 (Closed for July 4th!)</p>
<p>Let's splish & splash! Campers will explore the properties of water while also enjoying the cooling effects of wading pools, water sprinklers, slip-n-slides, water table activities and much more during this fun-filled week of water exploration!</p>

Session 3: Science Camp	
Week 6: July 9-13 Snap, Crackle & Pop!: The Science of Sound	Week 7: July 16-20 Color: The Science of Sight
Did you hear that? Campers will awaken their five senses starting with learning about the sense of hearing while also exploring how sound can be created and how sound travels. This week's on-site workshop is... Mad Science's Listen Closely/Sonic Sound	Do you see what I see? This week campers will specifically learn how to use their sense of sight to develop observational skills while exploring concepts of color creation, glow in the dark, light, optical illusions and more. This week's field trip is... Glowzone
Week 8: July 23-27 Sticky & Stinky: The Science of Touch & Smell	
What's that smell? Campers will learn about the unique aspects of the sense of touch and smell by conducting fun experiments and exploring various materials. They will also discover ways to use their five senses to describe the world around them. This week's on-site workshop is... <p style="text-align: center;">To Be Determined</p>	

***NOTE: Field trips are subject to change. Only students ages 5 & older are eligible. The 9th Bridge School reserves the right to determine field trip eligibility for each camper. Eligibility is determined based on a number of factors including but not limited to safety concerns, behavior, etc.*

WEEKLY EVENTS

Mondays

Let's watch a movie related to the project topic we are exploring for the week!

Tuesdays

Children will take a field trip or have an on-site workshop!

Wednesdays

It's Water Day! Put on your bathing suits and get ready to splash! We will have sprinklers, slip-n-slides and water activities to help keep us cool!

Thursdays

Let's find the next 9th Bridge Top Chef with some fun and healthy cooking lessons! We'll use ingredients from the school garden!

Fridays

Reading is FUNdamental! We will visit the school library for a "mystery reader" and to check out a book to borrow for home!
